

Give students a school they're proud to call theirs.

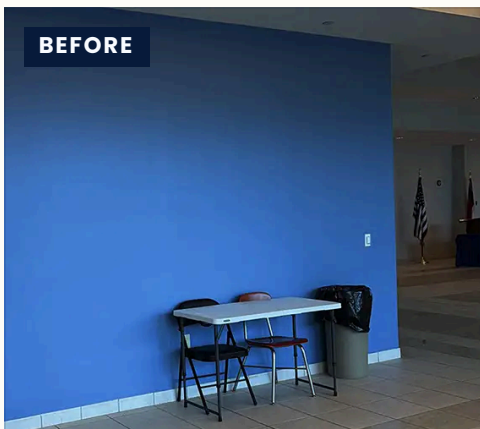

Bring your colors, mascot, and history to the walls students pass every day, with the approved image printed directly onto the surface.

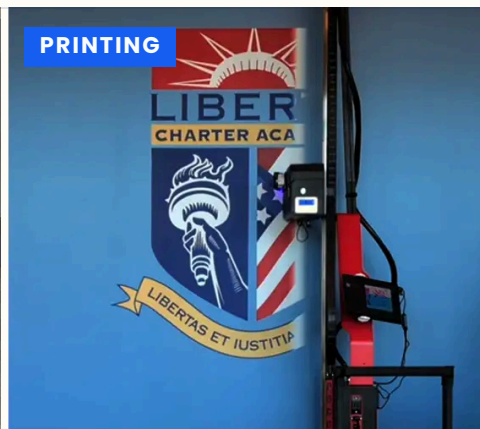

School Mural printed directly on the wall

We Print Images Directly on the Walls

No vinyl. No decals. No bubbles, peeling, or stress.

Liberty Charter Academy

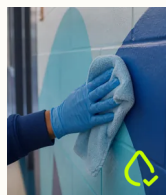

Made for real school buildings.

The wall still has to work like a school wall.

Common surfaces

Drywall, CMU, concrete, and brick.

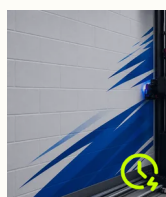

Cleanable

Made for ongoing upkeep.

Reversible

Paint over it when plans change.

Fast to print

The print itself is usually completed in hours.

Wall condition, access, artwork, approval, and scheduling shape the full project timeline.

Start with the wall everyone already sees.

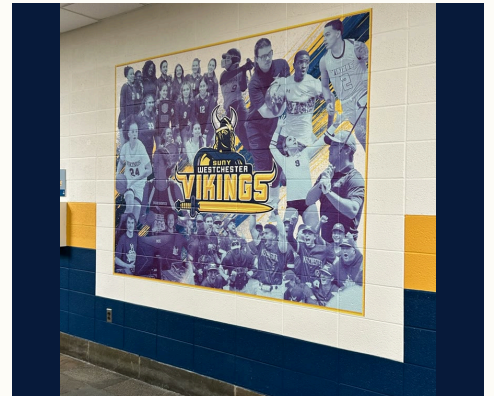

It may be the entrance families walk through, the gym students rally in, or the hallway everyone crosses between classes.

Three clear steps from idea to finished wall.

Your team approves the direction. EastCoast handles the technical work.

1

Choose the space

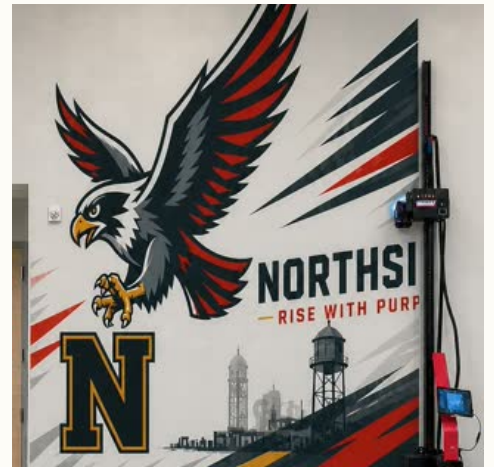

Pick the wall you want to change.

2

Approve the image

Your team stays in control of what gets printed.

3

We prepare and print

EastCoast measures the wall, prepares the print file, and completes the print.

Your space: choose the wall that matters most.

Your approval: nothing prints until your team approves it.

Our technical work: measurement, file preparation, and printing.

Three ways to frame the scope.

Use these ranges to start an internal conversation. Exact scope and price depend on the actual walls and site conditions.

PILOT PROJECT 1 to 3 walls

A smart place to start with one to three visible walls.

\$5k to \$10k

SCHOOL PRIDE 4 to 10 walls

For schools ready to bring identity into more shared spaces.

\$10k to \$25k

TRANSFORMATION 11+ walls or multi-school

For coordinated projects across multiple walls or schools, planned after on-site walkthroughs.

\$25k+

These are planning ranges, not binding estimates.

The final quote is confirmed after an on-site walkthrough and measurement.

Which wall should students remember?

Tell us which space you have in mind. We'll help you understand what it could become and what it takes to print it.
